BELLEVUE
CAFÉ

At Bellevue Cafe we offer a tailor-made experience to our bride and groom.

Menus can be altered to fit with certain dietary requirements or interchanged to suit your palette.

The venue is yours to decorate. Fairy lights can be used to soften the mood, hearts hung from our tree in the centre of the restaurant and bunting strung between the beams.

We do not put a limit on what you can bring in to make your day amazing, except it is a “no” to draping. Bellevue is gorgeous without it!

The Bellevue team is here to assist with setting up your wedding in any way we can but we do not take ultimate responsibility for the set up. If you would like us to set up your wedding from start to finish an additional fee of R2000.00 applies.

You can even get married in our beautiful gardens.

Due to us being situated in a residential area DJ music can play till 11.00pm. After that our speakers can be used and music played through an iPod. The venue closes at midnight.

Once you have left the team will take down the décor and store it for collection in the coming days.

If you plan to have fairy lights, bunting etc this can all be set up the prior – we love as it adds to our atmosphere!

DJs, string quartets, duos all are welcome. We have a great area – that projects the sound well – for them to set up, with an area to dance. The set up for sound does need to be limited no big bass speakers are permitted.
